Bond Passage For Sewer Work Will Gain Federal Aid

An opportunity has presented itself to the residents of the Donner Lake, Donner Trail and Meadow Park areas to have an adequate sewer system in the near future.

The governing board of the Truckee Sanitary District will meet at 7:30 p. m., July 6, in the County Building for the purpose of setting wheels in motion for holding a bond election in the near future to provide funds for the initial step in the installation of a sewer system in the areas west of Gateway Park.

Urgency in holding the election was emphasized by the fact that federal funds in the amount of $161,280 will become available to assist in the project providing the bonds carry. The project has been approved by the state water quality control board and the funds will be available under the federal water pollution control act, with passage of the bonds. All other necessary requirements, according to Oliver Crose, board clerk, have been met.

The bond election would be for approximately $500,000. This sum, together with the federal grant, would finance the installation of the trunk line from a point west of Gateway Park to the present disposal plant. With this important feature completed, special service districts could be set up to finance unit installation of latteral lines.

The first of these districts would probably be Donner Trail and Meadow Park subdivisions with others added in units until the system could be completed, possibly by 1968.

It was pointed out by Crose that the federal funds will not be available unless the bond issue carrries and that other communities are making applications for the grants which are not limitless.

Because of the urgency, the board hopes to hold the election in the near future. Crose said that only registered voters of the areas not now served by the sewer system in the district would be eligible to vote and that they alone would be obligated by the bonds. Since the assessed valuation of the affected district is only about $3,000,000, it is not possible to ask for more than $500,000 in bonds.

The budget, previously published, was approved by the board at its last meeting.

County Budget To Be Higher As New Services Required

NEVADA CITY—Nevada County supervisors approved a preliminary 1965-66 budget of $5,155,632. The final budget approved by the supervisors last year was $4,916,756.

Although most of the increase is attributable to normal growth and expenses of county government, the supervisors have added some new programs which account for a good part of the increase.

Included in this category is the contribution to the new humane shelter program in Grass Valley of $40,000. The board also budgeted for four new deputies for the sheriff's department at a cost of $25,000 to $30,000, increased the operating reserves from $100,000 to $150,000, budgeted $45,000 for construction of a taxi strip at Loma Rica Airport and $80,000 for renovation of the old courthouse.

The board is expected to get the new county assessment roll by July 6 and will then start sitting as a board of equalization.

The budget has to be published and made available for public inspection by August 10. Budget hearings will start August 20 and may be continued no longer than 10 days. The final budget must be adopted not later than August 31 and the tax rate must be set on or before September 30.

Coast Guard Plans New Tahoe Dock

The question of whether the U S. Coast Guard will have a station at Lake Tahoe again this year was resolved last week when the agency announced plans to construct its own mooring facility on property adjacent to the inland fishing access at Lake Forest.

Commander Donald M. Reed, acting chief of the 12th Coast Guard District, said his organization has stationed an 18-foot mobile boat at Tahoe and indicated that when the mooring facility is completed the 30-foot patrol boat will be stationed there.

The announcement to the board of supervisors ended the coast guard's threat to leave Tahoe because of a dispute with the county recreation commission over mooring sites.

Shortcut Bill Gets Senate Approval, Goes To Governor

Senator Paul J. Lunardi announced today that Senate Bill 1071 successfully passed through the legislature and is presently on the governor's desk for his signature.

SB 1071 adds the North Shore Boulevard FAS Route, which is a direct access between Interstate 80 and north shore communities, to the state highway system.

Senator Lunardi emphasized that, "One of the major benefits derived by the counties through this inclusion is the savings of approximately $45,000 for snow removal services which can be applied in other areas."

The senator also pointed out that while this route was originally constructed to federal-aid secondary highway standards, it will be necessary for the state division of highways to spend approximately $1.7 million to bring portions of the route back up to state standards.

This includes a new bridge across the Truckee river, he said.

As a state highway, it is estimated that the traffic volume will increase approximately 10 per cent during the first year due to signing and improvements along the 12 mile route.

Trailer Towing Tip Given For Drivers

"If your summer plans include towing a trailer, it's a good idea to review your driving habits as well," California Highway Patrol Commissioner Bradford M. Crittenden said this week.

"The maximum speed for any vehicle which tows a trailer is 50 mph —subject of course to lower posted limits. Because the weight of the two vehicles is greater, following distances should be increased well beyond the usual one car length per each 10 miles of speed to allow adequate space for safe stops.

"Vehicles pulling trailers are required to drive in the right-hand lane, except when passing or preparing for a left turn. Remember that more clearance is necessary when passing because of increased length.

"Trailer sway can be reduced by using a proper hitch and by suitable weight distribution in both car and trailer. The hitch should be securely mounted—preferably to the frame — and must be strong enough for the weight drawn. It must be supplemented by a safety chain between vehicles.

"If the trailer or its load obscures your view to the rear, two side mirrors are required on the towing vehicle to provide a clear view at last 200 feet to the rear.

"In mountain driving on two-lane roads, slower moving vehicles are required to pull into marked turnouts whenever five or more vehicles are lined up behind."

That, son, is a home that's completely heated by electricity. And in the years ahead, it's likely that more homes will be heated by electricity than by any other method.

Electric home heating is the really modern way—clean, automatic, safe, and so convenient. You can have a chimney if you want it, of course, but you'll save many dollars on home building with easy-to-install, economical electric heating.

Ask us for details, or see your electric wiring contractor about the ideal way to heat your home . . . electrically.

DONNER DOINGS. . . .

By Vi White

Donner Lake has had another fish plant. Last Friday 7,000 were brought in, half of them rainbow and the others the hybrid kamloops. 1,000 of them have been tagged.

Bill Yost of the Inland Fisheries department of the California Fish and Game Commission has installed cylinders at the motels and beaches for the tags. Please deposit them so that they can tell the habits of newly planted fish. He will be around collecting the tags each week all summer.

* * *

Several happy youngsters passed their Red Cross Junior Life Saving class at Squaw Valley last week and to show what strong swimmers they are, they swam across the east end of Donner Lake Sunday.

Those who made the swim under the guidance of their teacher Barbara Small, were: Sandy Eckerman, Mary Ann Atkinson, Patti Free, Debbie Lomax, Jack Jones, Verle Melvin, Jeff Jellin, Bob Sutton and Chris Wiser.

They were followed along by Mrs. Virus, Mrs. Wiser and Mrs. Atkinson in three boats.

The group had a picnic lunch at the park then swam back again to the hiway later that afternoon.

They couldn't have picked a nicer day, warm and calm.

* * *

The colorful laundramat on the hiway across from La Marina Lodge is open again for the summer.

* * *

The Donner Lake Coffee at the east end has added a touch of greenery by planting trees in tubs for their brick window box. Other businesses might take note. It softens that asphalt and gravel look.

* * *

Dr. Ben and Georgiana King's lovely lake front home was the scene of a fabulous cocktail party for the Truckee Lions Club and their wives Saturday night. Cohosting the event were Gladys and Tom Dolley.

Installation of officers followed at Smart's Restaurant.

* * *

Jim White has added a marine supply and repair shop to his Rocket Gas station near the park.

* * *

The Donner Lake Property Owners' Association will hold its annual July 4 meeting at their beach Sunday at 1 p. m. Representatives of the park and recreation district and sewer district have been asked to attend. Election of officers will be held that afternoon, and a report given on the developments of the acceptance of the road assessment district by Nevada County.

* * *

Ever see so many busses around the area over the weekend? They brought the thousands of Job's Daughters to their convention at Squaw Valley. Many girls were housed in Donner Lake area.

* * *

Our sailboat had an embarrassing maiden voyage last Saturday in front of Donner Lake Lodge when the gadget holding the wire stay to the mast gave way and mainsail, jib and mast plopped over into the water.

Those aboard were shocked and frightened, but when we saw that the damage was not too great, we joined in the laughter with those ashore.

It must have been quite a sight to see us paddling to safety with a boat cushion and the rudder, but with the help of our able crew, Dr. Doug Brodie and Dick and Ellie Holman, we were off again and sailing nicely.

Sunday we joined the Brodie's on their 21 foot boat at Sunnyside for a leisurely sail on Tahoe. "Rusty" Rustad decided the boats should just sail around since there wasn't enough breeze for a race. The whole group was becalmed and those without auxiliary motors had to paddle back, but later in the afternoon the wind came up and sailing was good again.

* * *

Well the kids and grownups will be disappointed again this year. There will be no fireworks at Donner Lake. Seems there was a lack of interest on the part of some people and many who would have liked to have a display were never approached for a donation. Certainly our local chamber of commerce and motel and business association should make every effort to promote such an event for next year.

Deedy and Bill

Currently starring with Vive Les Girls in the Topaz Room at Nevada Lodge, Lake Tahoe.

CRYSTAL BAY—Deedy and Bill—the hilarious variety act that drew raves from Walter Winchell comes to the Topaz Room Theater Lounge and Dining Room at Nevada Lodge, the largest resort-hotel-casino at the North End of Lake Tahoe. The zany pair of Deedy and Bill are one of the more popular comedy duos to visit the mile-high lake area. You name it . . . and this pair of fun-makers do it—from slapstick comedy and mimicry to dancing on, over, around and under the piano and singing.

All New Vive Les Girls Attract Huge Crowds To Lodge

CRYSTAL BAY—A tall statuesque brunette and a slender pin-up model blonde are just two of the reasons why Frederic Apcar's new Vive Les Girls revue now in the Topaz Room of the Nevada Lodge has been acclaimed the hit show of the Lake.

Brunette songstress Bonnie Baker gives a touch of American glamour and song to the Parisian-type revue while beauteous blonde Heather O'Hara is all Paris—from top to toe—as she offers dances that share moments of intimate electricity with the audience that are positively breathtaking.

O'Hara comes to Frederic Apcar's Vive Les Girls review after her starring appearances at the Lido de Paris show in Paris and a short stint as a Life Magazine fashion model.

Baker began her show business career as a singer and dancer with the Jimmy Durante show. She has been featured in such shows as Guys and Dolls, Oklahoma, Brigadoon, Kiss Me Kate, South Pacific and many others. She's also shared billing in Las Vegas with Dennis Day and Mamie Van Doren.

The new editiion of Vive Les Girls, like the second edition last year, will certainly smash all attendance records at North Tahoe's largest year-round resort-hotel-casino.

The Goofers with Carl Carsony, who bill themselves as "a most unique and strange association" lend a comedy touch to the show as does the amazing magic act from Europe, Michael Allport and Jenifer. Adding another continental touch to the show is the singing of David Walker, who captures the French mood in presenting a galaxy of hit songs.

Alternating with Vive Les Girls revue on the Topaz Room stage are the fabulous comedy duo of Deedy and Bill, one of the most popular pairs to visit the shores of the mile-high lake.

ENTRIES RECEIVED IN 100-MILE, 1-DAY RACE

Entries are being received for the 100-mile, one-day horseback ride from Tahoe City to Auburn on July 10. Two of the entries are from Great Britain, Penelope Croft and Julia Brown, and Count Fredweick von Lederbur has been in the area since April from Austria training his horse for the event. Jack Acres of Canada in training in British Columbia and Frank Kosek of Hawaii will be back for this year's event.

Local riders are busy toughening up their mounts for the grueling race.

Plan Designs Delay Local State Office

That Truckee will not have its new California Highway Patrol and Department of Motor Vehicles office this summer was indicated with a report from the state division of architecture that it will be another four months before the working drawings are completed.

The Capitol News Service at Sacramento contacted the division last week to ascertain the progress being made on the proposed structure and was informed that bids can not be called for until the plans are completed.

An appropriation of $308,000 has been approved for the new office buildings to be located just north of Interstate 80 at the Tahoe interchange on property purchased from Richard Joseph.

First plans for the building were not found suitable for this location and new plans were necessary.

The building will house both the highway patrol and the department of motor vehicles, with ample parking room, garages for state vehicles and other necessities.

The present office, occupied by the state for the past ten years is no longer adequate for the expanding requirements and was sold to the Truckee Christian Science Society recently. The latter organization plans to remodel and improve the building to provide a modern meeting place and church.

Hammurabi, a king of ancient Babylon, published the laws of his country by having them carved on great stone slabs and erecting them in every city and village of the land.

YOUNG MEN NEEDED ON HIGHWAY PATROL

A professional career in a highly respected law enforcement organization is the opportunity being offered young men now by the California Highway Patrol, Commissioner Bradford M. Crittenden said today.

"Applications for the position of State Traffic Officer are being accepted through July 23. Application blanks are available at any Highway Patrol office. They must be filed no later than midnight on that date."

Interested men must be 21 to 31, high school graduates or the equivalent, in good health with no disabling physical defects, have normal hearing and vision, be 5 feet 9 to 6 feet 6, and have been California residents at least one year.

"Advantages of serving with the patrol include generous salary and other benefits, the opportunity for steady advancement based on individual merit, and the satisfaction of performing a responsibility that is of extreme importance to the well-being of every California citizen," the commissioner said.

Obtain License—

An Auburn marriage license was applied for by Milton Batt, 21 of Crystal Bay and Susan Packard, 21 of Tahoe City.

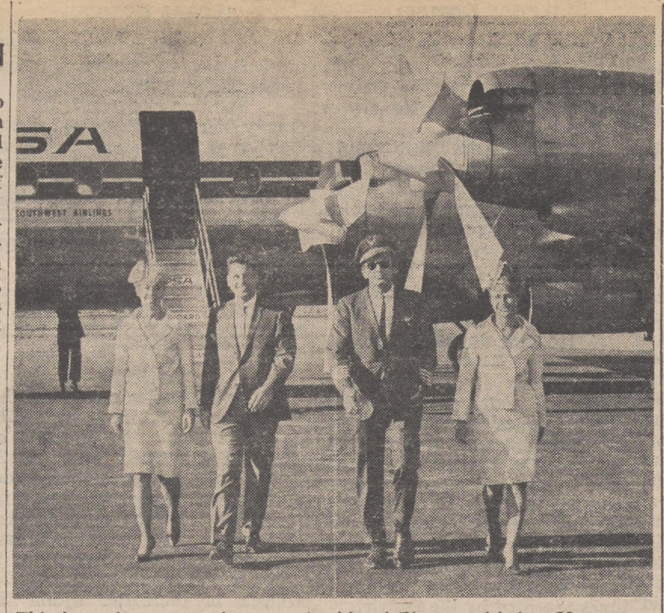
FOR RENT— Housekeeping and sleeping rooms, $50 per week, for two. Pine Ridge Motel, Tahoe Vista, Lake Tahoe, Calif. tfc



This huge four-motor, jet prop, Lockheed Electro with it s 98 passengers and crew experienced no difficulty in landing or taking off from the Truckee Tahoe Airport during the weekend. The airplane brought 98 members of Jobs Daughters to the convention. It was greeted by Andy Creglow, airport manager and members of the district board. In the foreground in the above picture are Hostess Claudia Schnabel, Jack Houlgate, board president, Captain Lee Thaxton, Hostess Margie Koch.

Largest Airplane Lands On Local Field To Bring Delegates To Squaw Conclave

The Truckee-Tahoe Airport last weekend played an important part in the reception of many of the 7,000 members of the Job's Daughters when it hosted the flight of the largest plane ever to land on the Truckee-Tahoe airport—a jet-prop Lockheed Electra owned by Pacific Southwest Airways.

The delegates and members of Job's Daughters, a national organization, held a three-day convention at Squaw Valley.

The Los Angeles delegation, numbering 97 members, arrived on the Electra and were greeted by Airport Manager Andrew Creglow, and members of the airport district board of directors, as well as local dignitaries.

Truckee has for many years been the hub of aviation in the high Sierras. During the 'roaring 20's Big Rock Airport, located beside Highway 89, served the area. A monstrous black boulder identified the field to aviation pioneers flying the transcontinental mail route.

In the early 1930's Ford Tri-Motors used the Martis Meadows landing strip, located at the same site as the present airport, however, an emergency CAA field was constructed and used from 1933 until the present airport was built in 1960.

Population and business activity increased in the Truckee-Tahoe area and with the 1960 Olympics, far sighted people recognizing that modern transportation is necessary for continued economic growth, spearheaded a movement to form an airport district. Voters were 75 per cent in favor of the proposal and the airport was constructed to handle airline equipment, as well as providing services necessary to attract the many private airplanes based in California.

At the present time the Truckee-Tahoe Airport, located some two miles south of Truckee, has a paved 6,000 foot runway and taxiway complete FAA approved lighting, adequate parking areas and terminal building. The expenditure for facilities total over half a million dollars, supported by taxpayers, grants from the Federal Aviation Administration and airport revenues. Plans for the immediate future include a secondary runway, hangar buildings, and additional ramp areas.

It is anticipated that with increased use of air transportation and the business travel generating from the area, PSA and other airlines will find service to the Truckee-Tahoe Airport a profitable source of revenue.
